Self-paced ISO 42001 Foundation course accredited by PECB

The ISO/IEC 42001 Foundation eLearning course is structured to provide you with a clear understanding of **AI management systems**. It includes an **introduction to AI concepts, the structure and requirements of ISO/IEC 42001**, and the fundamentals of establishing, implementing, and maintaining an AIMS. The course also covers governance, ethical considerations, and risk-based thinking in AI.

Key Learning Objectives

- **Understand the Basics of AIMS -** Gain a solid understanding of the fundamental concepts and principles behind Artificial Intelligence Management Systems (AIMS) and their role within organizations.
- **Familiarize Yourself with ISO/IEC 42001 Requirements-** Learn the structure, purpose, and core requirements of the ISO/IEC 42001 standard, including how it applies to the responsible use of artificial intelligence.
- **Explore AI Governance and Risk Management-** Discover how ISO/IEC 42001 helps organizations manage risks, ensure ethical AI usage, and establish appropriate controls for transparency, accountability, and trust.
- **Interpret the Scope of an AIMS -** Develop the ability to interpret and assess the scope of an AI management system in different operational and organizational contexts.
- **Prepare for the Certification Exam -** Build the foundational knowledge required to confidently sit for the PECB ISO/IEC 42001 Foundation certification exam and support your professional growth in AI compliance.

Who Should Attend?

This course is ideal for anyone seeking to **understand the fundamentals of artificial intelligence governance and compliance**. It is especially valuable for:

- Professionals involved in the development, deployment, or oversight of AI systems
- Compliance officers and risk managers looking to ensure responsible AI use
- Individuals pursuing a career in AI governance or related fields
- Managers, consultants, and decision-makers seeking to implement AI management systems
- Anyone preparing for more advanced ISO/IEC 42001 certifications

No prior experience in AI or auditing is required — making this course an excellent starting point for professionals at all levels.
