Master COBIT® 2019: Your Gateway to Excellence in IT Governance

Elevate your knowledge of IT governance and management with the COBIT® 2019 Foundation eLearning Course, designed for both newcomers to COBIT and current COBIT 5 certificate holders. This online course equips you with a comprehensive understanding of the COBIT framework, enabling you to confidently navigate today's challenges in enterprise information and technology governance.

Through 5 hours of dynamic, instructor-led sessions combined with self-study, you'll explore the core concepts, models, and definitions of COBIT 2019, while preparing to excel in the COBIT 2019 Foundation Exam. Plus, enjoy year-long access to course materials and earn 5 CPE credits upon completion.

Prerequisites

No formal qualification is required to take this COBIT course or complete the exam, but experience and knowledge of IT service-providing firms or IT service-providing departments of any firm are required.

About the Examination

This is an online, remotely proctored 2-hour exam that is comprised of 75 multiple choice questions. To pass the exam, you must earn a score of 65% or higher. You can register for the COBIT Foundation certificate exam at any time with your exam voucher.

By passing this exam, candidates demonstrate their expertise in COBIT's concepts, principles, and methodologies, showcasing their ability to design, implement, and sustain an effective governance and management system for enterprise information technology.

The exam voucher is included in the price of this eLearning module.

Course Delivery Method

Language of the eLearning & Exam: English

Learners will have access to the course for one year from date of purchase and will earn 5 CPE upon completion. This course has a seat time of approximately 5 hours and is accessed via the Learning Access tab of your MyISACA dashboard.
