ISO/IEC 27001 Lead Implementer Self-paced learning accredited by PECB

- Gain a comprehensive understanding of the concepts, approaches, methods, and techniques used for the implementation and effective management of an ISMS
- Acknowledge the correlation between ISO/IEC 27001, ISO/IEC 27002, and other standards and regulatory frameworks
- Understand the operation of an information security management system and its processes based on ISO/IEC 27001
- Learn how to interpret and implement the requirements of ISO/ IEC 27001 in the specific context of an organization
- Acquire the necessary knowledge to support an organization in effectively planning, implementing, managing, monitoring, and maintaining an ISMS

WHO SHOULD ATTEND?

This eLearning training course is designed to prepare you for implementing an information security management system (ISMS) based on the requirements of ISO/IEC 27001. It aims to provide a comprehensive understanding of the best practices of an ISMS and a framework for its continual management and improvement.

- Project managers and consultants involved in and concerned with the implementation of an ISMS
- Expert advisors seeking to master the implementation of an ISMS
- Individuals responsible for ensuring conformity to information security requirements within an organization
- Members of an ISMS implementation team

The eLearning will be the ideal solution for those who do not have the time or budget to attend a classroom-based training.

PREREQUISITES

There are no prerequisites or technical background required to attend this course.

ABOUT THE ISO/IEC 27001 LEAD IMPLEMENTER
