ISO/IEC 27001 Foundation eLearning PECB Certified

Duration: 14 hours 1 year access exam voucher included

Discover the fundamentals of ISO/IEC 27001:2022 and learn how to structure an Information Security Management System (ISMS).

✓ 100% Online and Self-Paced
Access your ISO/IEC 27001:2022 Foundation training anytime, anywhere. Learn at your own rhythm with a flexible eLearning format, ideal for busy professionals.

✓ Exam Included in the Course Fee
Your PECB certification exam is included in the price of the eLearning package—no hidden costs.

✓ Official PECB Training Material (200+ Pages)
Get comprehensive digital courseware, including over 200 pages of content filled with practical examples, real-life scenarios, best practices, exercises, and quizzes.

✓ Free Exam Retake Within 12 Months
Didn't pass the exam on your first try? No worries—PECB offers one free retake within 12 months of your initial exam date.

This foundation-level training provides a clear understanding of the essential principles for implementing and managing an ISMS in line with ISO/IEC 27001:2022. You will explore the core components of the system, including security policies, internal procedures, performance indicators, management commitment, internal audit, management review, and continual improvement.

Course Objectives

By the end of this ISO/IEC 27001:2022 Foundation eLearning course, participants will be able to:

- **Understand the importance of information security** in today's evolving threat landscape and recognize its role in meeting customer, legal, and regulatory expectations.
- **Identify the fundamental concepts and principles** of an Information Security Management System (ISMS) based on ISO/IEC 27001:2022.
- **Gain a solid understanding of ISMS components**, including policies, procedures, performance measurement, risk-based thinking, internal audits, management review, and continual improvement.
- **Learn the essential steps to implement and manage security controls** aligned with ISO/IEC 27001 best practices and requirements.
- **Prepare for the official PECB certification exam** and work toward earning the credential: *PECB Certificate Holder in ISO/IEC 27001:2022 Foundation*.
- **Demonstrate knowledge of the ISO/IEC 27001 framework**, its requirements, and the management system approach to information security.

How It Works - Learn on MyPECB

We will process your order within a maximum of two working days. First, you will receive an invitation from PECB to create your MyPECB account and confirm your email address. **Once this step is complete, we will be able to activate your training and exam.**

Please note that standards are not included. You can purchase them via your PECB account in the 'store' section.

You'll have access to:

- **Video-based learning** covering all key topics
- **Structured course materials** organized by training days
- **Downloadable and editable files** (case studies, exercises, answer keys where applicable)

- **Interactive quizzes** to reinforce your understanding throughout the course

When you're ready, **schedule your certification exam online** at the time, date, and location that suits you best on your MyPECB account.
