The ISO/IEC 42001 Lead Auditor eLearning course equips you with the skills needed to audit, evaluate, and improve an Artificial Intelligence Management System (AIMS) in compliance with the ISO/IEC 42001 standard. By the end of the training, you will be ready to plan, conduct, and manage audits following best practices.

Objectives:

1. Understand the fundamental principles of ISO/IEC 42001 and its application in auditing.
2. Acquire the skills needed to audit an Artificial Intelligence Management System (AIMS).
3. Master risk evaluation techniques and the management of nonconformities.
4. Prepare and conduct certification audits for a compliant AIMS.
5. Achieve the PECB ISO/IEC 42001 Lead Auditor certification to demonstrate your expertise.

Course Content:

1. Introduction to ISO/IEC 42001 and its requirements
2. Fundamental auditing concepts based on ISO/IEC 19011
3. Preparing and planning internal and external audits
4. Conducting compliance audits for ISO/IEC 42001
5. Drafting audit reports and managing nonconformities
6. Managing an ISO/IEC 42001 audit program

Who Should Attend?

This eLearning course is designed for:

- Internal and external auditors looking to specialize in AIMS audits.
- Consultants or managers responsible for AI management system compliance.
- Artificial intelligence experts involved in evaluating and ensuring compliance of AI systems.

The eLearning format is ideal for those with limited time or budget to attend in-person training.

Prerequisites

No specific technical knowledge is required for this course, although audit experience is an advantage.
