COURSE & LEARNING OBJECTIVES

Learn at your own pace with PECB-accredited training

The ISO 31000 Risk Manager eLearning course equips you with the skills to **implement, analyze, evaluate, and manage a risk management framework based on the ISO 31000 standard**. By the end of the training, you'll be ready to address risks proactively and in line with international best practices.

Objectives:

1. Understand the fundamental concepts of risk management and their application within an organization.
2. Learn how to establish a risk management framework in compliance with ISO 31000.
3. Acquire the skills to identify, analyze, evaluate, and treat risks effectively.
4. Master techniques for monitoring, communication, and consultation on risk management.
5. Earn the PECB ISO 31000 Risk Manager certification to showcase your expertise.

Course Content:

- Introduction to ISO 31000 concepts and principles
- Establishing the risk management framework
- Risk identification
- Risk analysis and evaluation
- Risk treatment
- Risk monitoring, communication, and reporting
- Preparation for the ISO 31000 Risk Manager exam

Who Should Attend?

This eLearning course is designed for:

- Managers or consultants responsible for risk management within an organization.
- Individuals who want to better understand risk management principles, frameworks, and processes.
- Professionals ensuring ISO 31000 compliance in their organizations.
- Anyone interested in a career in risk management.

The eLearning format is ideal for those with busy schedules or who prefer to study at their own pace.

Prerequisites

No specific technical experience is required, but general knowledge of management systems or organizational processes is beneficial.
