

PECB Certified ISO 22301 Lead Implementer eLearning

1-year online access | PECB Certified ISO 22301 Lead Implementer exam voucher & second chance included

Earn your PECB ISO 22301 Lead Implementer Certification at your own pace!

Gain the skills to implement, manage, and improve a Business Continuity Management System (BCMS) based on the ISO 22301 standard. This online course is designed to meet the needs of diverse learners, allowing you to study at your own pace and access learning materials anytime, anywhere.

- The two options includes the study guides, online resources, and interactive quizzes
- **Only for the eLearning option: Interactive training videos delivered by experts**
 - The price covers the certification exam fees and second chance for the exam
 - Approximate study duration is 31 hours
- 1-year access to the learning platform, 24/7 PECB technical support

The e-learning course is available in English only, and the exam is also in English. **The self-study course is available in English and French**, with the exam in the language of the course.

Learn at Your Own Pace with PECB-Accredited Training

The PECB ISO 22301 Lead Implementer online course equips you with the skills to implement, manage and improve a Business Continuity Management System (BCMS) in accordance with the ISO 22301 standard. By the end of this training, you will be prepared to plan, establish and manage a BCMS in line with industry best practices.

The self-study format does not include the training delivered by industry experts via interactive videos.

Objectives:

- Understand the fundamentals of ISO 22301 and its application in a BCMS
- Develop the skills needed to implement a **Business Continuity Management System**
- Master techniques for risk assessment, business impact analysis, and incident response
- Prepare your organization for an **ISO 22301 certification audit**
- Earn the **PECB ISO 22301 Lead Implementer certification** to showcase your expertise

Course Content

- Introduction to ISO 22301 and its requirements
- Core concepts of business continuity management
- Risk assessment, business impact analysis, and continuity strategies
- Planning, implementing, and managing a BCMS
- Monitoring, evaluation, and continual improvement of a BCMS
- Preparing for an ISO 22301 certification audit

Who Should Attend?

This online course is designed for:

- Project managers and consultants involved in business continuity management.
- Professionals responsible for ensuring business continuity within an organization.
- Members of a BCMS implementation team.

E-learning is ideal for those with a busy schedule or who prefer to learn at their own pace, whilst benefiting from videos by expert trainers. **Self-paced learning** is ideal for those who wish to take this certification in French, or who are on a tight budget.

Prerequisites

No specific technical background is required, but knowledge of management systems is an advantage.

About the ISO 22301 Lead Implementer Exam

Participants receive a voucher to take the exam at home or in the office. The voucher is valid for one year, and it is recommended that the exam is taken shortly after completing the training. Candidates will take the exam online via the PECB Exams application with remote proctoring.

- **Exam Duration:** 120 minutes (+30 minutes for non-native English speakers)
- **Format:** Closed book
- **Number of Questions:** 40
- **Passing Score:** 70% or higher (28 points or more)
