IMPORTANT

We have **many time slots available** for this course. Once you have booked your course online, we will contact you to provide details of the available time slots. You can then choose the most convenient one and we will allocate you to this session and send you all the necessary connection information.

Our partner runs several sessions per month during the day, in the evening, on weekdays and at weekends. So the choice is yours! Some typical schedules:

- 16:00 to 21:00 on weekdays (3 days)
- 14:30 to 20:00 on weekdays or weekends (3 days)
- 15:00 to 23:00 on weekends or weekdays (2 days)

COURSE & LEARNING OBJECTIVES

Learn at your own pace with the Scrum Alliance-accredited training

The **Certified Scrum Product Owner® (CSPO)** course equips you with the essential skills to effectively manage a product in an Agile environment. By the end of the training, you will be prepared to collaborate with stakeholders, maximize product value, and efficiently prioritize features.

Training Objectives

- Understand the fundamental principles of Scrum and how they apply to the Product Owner role.
- Develop the skills needed to manage a product backlog and maximize value.
- Master stakeholder management and the product lifecycle.
- Build a product vision and roadmap aligned with business goals.
- Earn the **Certified Scrum Product Owner® (CSPO)** certification to demonstrate your expertise.

Course Content

- Introduction to Scrum and the Agile framework
- Product vision and requirement management
- Project mindset vs. product mindset
- Role and responsibilities of the Product Owner

- Backlog prioritization and feature management techniques
- Release planning and iteration management
- Collaboration with stakeholders and Scrum teams

Who Should Attend?

This course is designed for:

- Product Owners and Product Managers looking to enhance their skills.
- Scrum Masters, project managers, or Agile team leaders.
- Scrum team members who want a deeper understanding of the Product Owner role.
- Anyone seeking the **CSPO** certification to advance their Agile career.

Prerequisites

No specific technical experience is required to take this course. A basic understanding of Scrum concepts is beneficial.

About the CSPO Certification

Unlike other Scrum certifications, the **CSPO** does not require an exam. Certification is awarded upon full completion of the training, delivered by a **Certified Scrum Trainer® (CST)**.

Course Delivery & Access

Once your order is confirmed, you will receive a confirmation within **2 business days**.

This training is conducted live online with an accredited instructor. You will have access to course materials and learning resources through a dedicated platform.

The registration process is simple: after purchasing your training on the **B2B Learning** website, you will receive access to the course and related materials.
