

PECB ISO/IEC 42001 Foundation eLearning Training Course

Study time ± 12 hours | 1-year access | PECB ISO/IEC 42001 Foundation exam included

Build a solid foundation in **Artificial Intelligence Management Systems** with the ISO/IEC 42001 Foundation eLearning course. This **PECB-accredited training course** covers the core concepts, structure and requirements of ISO/IEC 42001. It prepares you for the official Foundation exam and gives you the confidence to understand how AIMS works in practice.

- The course includes video modules, study guides, and quizzes
- The price includes certification exam fees, second chance at the exam and training materials
- Approximate study time is 10 to 12 hours
- Tutor support, 24/7 helpdesk and virtual mentoring sessions are included

Self-paced ISO 42001 Foundation course accredited by PECB

The ISO/IEC 42001 Foundation eLearning course is structured to provide you with a clear understanding of **AI management systems**. It includes an **introduction to AI concepts, the structure and requirements of ISO/IEC 42001**, and the fundamentals of establishing, implementing, and maintaining an AIMS. The course also covers governance, ethical considerations, and risk-based thinking in AI.

Key Learning Objectives

- **Understand the Basics of AIMS** - Gain a solid understanding of the fundamental concepts and principles behind Artificial Intelligence Management Systems (AIMS) and their role within organizations.
- **Familiarize Yourself with ISO/IEC 42001 Requirements**- Learn the structure, purpose, and core requirements of the ISO/IEC 42001 standard, including how it applies to the responsible use of artificial intelligence.
- **Explore AI Governance and Risk Management**- Discover how ISO/IEC 42001 helps organizations manage risks, ensure ethical AI usage, and establish appropriate controls for transparency, accountability, and trust.
- **Interpret the Scope of an AIMS** - Develop the ability to interpret and assess the scope of an AI management system in different operational and organizational contexts.
- **Prepare for the Certification Exam** - Build the foundational knowledge required to confidently sit for the PECB ISO/IEC 42001 Foundation certification exam and support your professional growth in AI compliance.

Who Should Attend?

This course is ideal for anyone seeking to **understand the fundamentals of artificial intelligence governance and compliance**. It is especially valuable for:

- Professionals involved in the development, deployment, or oversight of AI systems
- Compliance officers and risk managers looking to ensure responsible AI use
- Individuals pursuing a career in AI governance or related fields
- Managers, consultants, and decision-makers seeking to implement AI management systems
- Anyone preparing for more advanced ISO/IEC 42001 certifications

No prior experience in AI or auditing is required — making this course an excellent starting point for professionals at all levels.

ISO/IEC 42001 Foundation Exam Details

Participants will receive a voucher to take their exam from home or office. The exam voucher is valid for one year. However, we recommend not waiting too long between the end of your course and the exam.

- Exam duration: 60 minutes (+extra time for non-native English speakers)
- Format: Closed book online exam
- Number of questions: 40 multiple-choice questions
- Passing mark: 70% or higher (28 marks or above)

eLearning & Exam Delivery

After purchasing the course through **B2B Learning**, you will receive an invitation to create your **MyPECB account** (you can do this proactively). Once your account is created and your email is confirmed, you can start your learning path on MyPECB with your credentials.
