PECB Certified NIS2 Directive Foundation Self-Study Pack

PECB Certified self-study pack including official exam voucher and second chance

Boost your professional expertise with the PECB Certified NIS2 Directive Foundation self-study training and learn at your own pace!

This NIS2 Directive Foundation self-study course provides essential knowledge for understanding the cybersecurity requirements introduced by the NIS2 Directive. It covers the fundamental concepts needed to support organizations during **the planning, implementation, and management phases of cybersecurity programs** and compliance initiatives.

• Understand the key concepts and terminology related to the NIS2 Directive

• Interpret the core requirements of the NIS2 Directive within a cybersecurity framework

• Recognize the methods and best practices for implementing NIS2 Directive requirements

•

The NIS2 Directive Foundation selfstudy course is designed to help organisations stay ahead of evolving cyber threats by building **a strong foundation in cybersecurity and regulatory compliance**. As cybersecurity becomes increasingly critical across sectors such as energy, transport, healthcare, and digital services, the NIS 2 Directive plays a vital role in strengthening the resilience of essential and important entities.

Through the PECB NIS2 Directive Foundation training course, participants will gain practical insights into the key principles and requirements of the Directive, as well as industry best practices for protecting critical infrastructure and enhancing organisational cybersecurity capabilities.

This course is an excellent starting point for professionals seeking to understand and support NIS 2 compliance initiatives with confidence.

WHAT IS INCLUDED?

- Certificate and examination fees are included in the price of this selfstudy pack.
- A free retake of the exam is included in the fee.
- This training course includes diverse educational content, including practical exercises, multiple-choice quizzes, and illustrative demonstrations of NIS 2 Directive requirements.
- The quiz structure within the course closely mirrors that of the certificate exam, ensuring participants are well-prepared for the exam.

WHO SHOULD PARTICIPATE?

- Cybersecurity professional seeking to gain a thorough understanding of the requirements of NIS 2 Directive and learn practical strategies to implement robust cybersecurity measures
- IT managers and professionals aiming to gain insights on implementing secure systems and improve the resilience of critical systems
- Government and regulatory officials responsible for enforcing the NIS 2 Directive

PREREQUISITES

No specific prerequisites or technical knowledge are required to take this course.

ABOUT THE NIS 2 DIRECTIVE FOUNDATION EXAM

The “PECB NIS2 Directive Foundation” exam meets the requirements of the PECB Examination and Certification Program (ECP). It covers the following competency domains:

Domain 1: Fundamental concepts and definitions of NIS 2 Directive

Domain 2: NIS 2 Directive requirements

Participants will receive a voucher to take their exam from home or from the office. The exam voucher is valid during one year. However, we advice not to wait too long between the end of your course and exam.

- Exam duration: 1 hour
- Closed book format
- Number of questions: 40 multiple-choice questions
- Available language: English
