PRINCE2® Agile Practitioner

2 Days (14 Hours) / Exam voucher and Take2 option included

PRINCE2 Agile helps organisations to successfully blend two seemingly opposed but actually complimentary disciplines. The method combines the best of both PRINCE2 and Agile worlds. It provides a guide to project success, emphasising collaboration, team empowerment and iterative development.

• **2-day intensive and practical PRINCE2 Agile Practitioner training** that will help experienced PRINCE2 users and/or experienced Agile professionals to get insight in how the PRINCE2 governance model can be applied to Agile environments

• By taking this course, participants will acquire management controls for agile development, while experienced agile practitioners understand PRINCE2 governance requirements

• Participants will be prepared to take the PRINCE2 Agile Practitioner examination

• included : coffee breaks and lunches, digital OTM materials, official PRINCE2 Agile manual (paperback), exam voucher and Take2 option.

COURSE & LEARNING OBJECTIVES

After attending this 2-day course, delegates will:

- Have a good understanding of the basic concepts of common agile ways of working
- Understand the purpose and context for combining PRINCE2 and the agile way of working
- Be able to adapt and adopt the six aspects of a project in an agile context
- Learn to apply or tailor the PRINCE2 principles, themes, processes and management products to a project in an agile context
- Have the ability to be on time and hit deadlines
- Be equipped to embrace and adapt to change
- Be prepared to pass the PRINCE2 Agile Practitioner exam
