SUITABLE FOR

This training course is ideal for recent graduates that need a recognised project management certification, project team members, project coordinators, team leaders, business analysts, and any professional aspiring to become a project manager.

PRE-REQUISITES

The prerequisites for the CAPM® certification are as follows:

- A secondary degree (high school diploma, associate's degree, or the global equivalent)
- 23 hours of project management training **or** 1,500 hours of professional project experience.

HOW TO BECOME A CAPM CERTIFIED PROFESSIONAL?

To become a CAPM®-certified professional, you must undergo formal training from a registered, accredited organization like our partner (SL) and pass the CAPM® exam.

We provide two mock test papers as part of our course to help you prepare for the actual certification exam.

This package also includes the exam fee and a one-year PMP membership.

Upon completing the course, follow these steps to apply for the CAPM® certification:

- Register and log in to PMI®'s online system or use the printable CAPM® application form.
- Verify you meet the eligibility criteria and prepare your application information.
- Submit your application.

CAPM® certification is valid for three years. To maintain your CAPM® certification status, you must renew your certification every three years. This entails completing 15 professional development units in each three-year period.
