

AgilePM v3 Foundation Training & Certification

Master agile project leadership & value-driven delivery with AgilePM® v3

Agile Project Management – AgilePM® v3 Foundation

Learn how to **flex and deliver agile projects** that truly meet your customers' needs — on time, on budget, and with measurable business value. Through this **unique 3-day AgilePM® v3 Foundation training** in Brussels, Liège, Ghent or live virtual, you will build the knowledge and skills to manage projects with agility, confidence, and low risk.

This course helps you:

- Understand the **core principles, lifecycle and leadership mindset** of AgilePM® v3 — the latest version from APMG International.
- Learn the **basics of Scrum** and how it integrates with agile project management.
- Learn how agile project management differs from traditional approaches, and how to blend agile practices with governance and control.
- Prepare for and pass your **AgilePM® v3 Foundation certification exam**, recognised worldwide.

Whether you're a project manager, Scrum Master, business analyst, or team leader, this course will give you the tools and confidence to lead successful agile projects and contribute to your organisation's digital transformation.

LEARNING OBJECTIVES

Gain a competitive edge in your career by mastering a globally trusted agile framework, valued by organisations across Belgium and Europe.

By the end of this AgilePM® v3 Foundation course, you will be able to:

- Understand the **core principles, values, and mindset** of AgilePM® v3, including value-driven delivery, agile leadership, collaboration, and iterative development.
- Explain the **Scrum Essentials**, including roles, events and artefacts, and understand **how Scrum integrates into AgilePM as the delivery engine** within the project lifecycle.
- Explore the **AgilePM v3 lifecycle**, governance model and project-level products, and understand how they support successful agile delivery.
- Apply fundamental agile practices such as **MoSCoW prioritisation**, iterative development, backlog refinement, and timeboxing.
- Identify and describe the **roles and responsibilities** within an AgilePM project team and how these interact with Scrum delivery teams.
- Understand AgilePM's approach to **plans, estimation, quality management, stakeholder engagement, governance, and risk mitigation**.
- Contribute effectively as a member of an agile project team and prepare confidently for the **AgilePM® v3 Foundation certification exam**.

COURSE OUTLINE

1. Introduction to Agile & AgilePM v3

B2B LEARNING srl/bva

Avenue de la Toison d'Or 79 bte 6 | 1060 Brussels | +32 2 335 12 36

email info@b2blearning.be | www.b2blearning.be

TVA : BE 0475.396.208 | IBAN : BE03 7360 3289 4784

- Agile philosophy, values and principles
- Why AgilePM exists and what problems it solves
- Key changes introduced in **version 3** (value focus, leadership, Scrum integration)

2. Scrum Essentials (major addition in v3)

- Scrum roles: **Product Owner, Scrum Master, Developers**
- Scrum events: **Sprint, Sprint Planning, Daily Scrum, Sprint Review, Retrospective**
- Scrum artefacts: **Product Backlog, Sprint Backlog, Increment**
- Empirical process control (transparency, inspection, adaptation)
- **How Scrum fits within AgilePM:** Scrum as the *delivery engine* that feeds into AgilePM's project-level governance

3. AgilePM v3 Roles and Responsibilities

- Project-level roles (Sponsor, Visionary, Project Manager/Leader, Business Analyst, Solution Development Team, etc.)
- Interaction between AgilePM roles and Scrum delivery roles
- Creating a collaborative team environment

4. AgilePM v3 Project Lifecycle

- AgilePM lifecycle steps from pre-project to final delivery
- Alternative lifecycle configurations
- Understanding governance and project products at each stage

5. Requirements, Estimation & Prioritisation

- Business case, user stories, and requirement models
- **MoSCoW prioritisation** (Must, Should, Could, Won't)
- Backlog management
- Estimating and planning in iterative environments

6. Planning, Control & Risk Management

- Iterative and incremental planning
- Timeboxing (including Sprints within Scrum)
- Quality criteria and quality control
- AgilePM's approach to risk, change, and governance

7. Working with Agile Teams

- Team dynamics and communication
- Facilitated workshops
- Empowerment and agile leadership behaviours
- Interactions between AgilePM project teams and Scrum delivery teams

8. Exam Preparation and Exam at the end of Day3

- Examination format (50 MCQ, 60% passing score)
- Sample questions and group review
- Exam tips and best practices

Throughout the course you will work on a case study and exercises to apply the knowledge. The official handbook is included in paper-format for face-to-face courses and in pdf-format for live virtual students.

WHO SHOULD ATTEND?

This course is ideal for professionals in Belgium or the Benelux region (Brussels, Flemish & Walloon regions) who are engaged in or responsible for agile projects:

- Project managers (traditional or agile) looking to upgrade their skills
- Scrum Masters, Agile Team Leaders, Business Analysts wanting to expand into project leadership
- Senior managers, sponsors or governance professionals who need to understand how to manage agile project delivery effectively
- Anyone wishing to sit the AgilePM® Foundation certification and build a strong agile project leadership profile.

PREREQUISITES

There are **no formal prerequisites** for this Foundation course. Some experience in project work is beneficial but not mandatory.

ABOUT THE FOUNDATION EXAM

- Format: online multiple-choice exam
- Duration: 40 minutes
- Number of questions: 50
- Pass mark: **30 out of 50 (60 %)**, compliant with v3 exam scheme
- Closed-book exam
- Certificate: there is no expiry date for the Foundation certificate

The AgilePM Foundation exam is taken online with remote supervision by B2B Learning via Teams, one week after the end of the course (date and time to be agreed with the group). Alternatively, we can provide you with an exam voucher to take the test at a date and time of your choice via [APMG ProctorU](#).

COURSE MATERIAL

- Accredited training material (presentation slides, exercises, sample exam papers)

- Official AgilePM® v3 handbook (paper copy)
