Earn your Scrum Product Owner Certification

2-day course PSPOI exam included

This course is highly interactive and is designed to maximise your mastery of Scrum.

The Product Owner is a key player within the Scrum team: they are responsible for ensuring a return on the investment made by everyone, as they set the objectives to be achieved.

By the end of these two days, **you will have gained the motivation and knowledge needed** to drive sustainable improvements in the way your organisation develops software.

At the end of this course, you will be able to sit the “Professional Scrum Product Owner Level 1 (PSPO I)” certification exam.

LEARNING OBJECTIVES

After you complete the course, you will know:

- All the rules, artifacts, meetings and processes for Scrum
- Why the Product owner is such an important role, and how to be a great Product owner
- How to write user stories that drive innovative products
- How to prioritize your backlog to create maximum ROI
- Where to look for more information and how to get your questions answered.
